Tutorials for "Automated Reasoning II"
Exercise sheet 9

Exercise 9.1: (P)
The professor talks to one of his promising students: "This term you did a quite good job in logic. If you are now able to make a true statement, I score you 2.0. If you make a false statement I score you a different mark from 2.0 that I choose."

Present a statement for the student resulting in a mark of 1.0.
